So, it looks to me like we can almost just reuse the last agenda from March. I made a couple of edits. I realize that starting out with the very basics of the site may seem repetitive, but I think it's always important to provide a quick snapshot of the site location, risk, etc... because our quarterly meetings are meant for a broader audience than just the CAG. Let me know what you think and I will collect CAG input and we'll finalize it.
